

GENERAL CONDITIONS OF PURCHASE FOR GOODS AND SERVICES

1. General information

1.1 These general conditions of purchase (hereinafter the "Conditions") constitute an integral part of all orders issued by Philip Morris Italia S.r.l. (hereinafter the "Purchaser" or the "Client") regarding current and future supplies of goods (hereinafter "Supply of Goods") and/or services (hereinafter "Services") (hereinafter jointly "Supply") resulting from the acceptance by the Purchaser of an offer (hereinafter the "Offer") made by the person or company providing the Goods and Services (hereinafter the "Supplier") (the Purchaser and the Supplier are hereinafter collectively defined as the "Parties").

1.2 The Conditions will remain in force until they are modified and/or departed from by a contract in writing resulting from negotiations between the Parties and signed by the latter. No change, exception, further condition or note departing from these Conditions shall have any effect between the Parties, except those specifically approved in writing by the Purchaser, also in the purchase order (hereinafter the "Order").

1.3 The signature of the Conditions by the Supplier involves the application of these Conditions and the express waiver of any conditions of its own, whether considered individually or as a whole.

1.4 The acceptance and payment, even partial, of the Supply by the Purchaser shall not constitute recognition and/or acceptance of any different conditions set by the Supplier.

1.5 In case of conflict between what is contained in the Offer and what is written in one of the articles of the Conditions, what is contained in the Conditions shall prevail and therefore be applicable.

2. Formation of the Contract

2.1 These Conditions shall govern the Supply relationship arising from the Supplier's Offer which is accepted either in writing by the Purchaser or by placing the Order (Conditions, Order and Offer shall hereinafter be jointly termed the "Contract"). These Conditions shall come into force as from the date they are signed by the Supplier.

2.2 Any changes to the Order and/or the Conditions will be valid and binding only upon written acceptance by the Purchaser.

3. Procedures for the performance of the Supply

3.1 Without prejudice to the provisions of articles 1 and 2 above, the Supply must be performed in accordance with the time, modalities and places specified in the Offer approved by the Purchaser in writing or through the placement of the Order. The times for performing the Order must be regarded as essential pursuant to and in accordance with article 1457 of the Italian Civil Code.

3.2 The Supplier guarantees that it will perform the services covered by the Order on time and with the professional diligence required by the nature of the activity, in accordance with applicable laws. The Supplier also guarantees that the Goods delivered will conform with the contents of the Order and will have the features established therein, as well as those features that are essential for their intended use, and are free from flaws and/or defects due to incorrect design, production, processing, conservation, assembly and packaging or to the materials used, that are known and/or knowable by the Supplier, that would diminish their value and/or render them unsuitable, even in part, for their intended use. In this regard, the deadline for reporting flaws or defects shall in any event commence from the date of discovery, as required by the relevant Italian

legislation in force. Finally, the Supplier also guarantees that the Goods covered by the Order will comply with any European Union regulations that may apply to them.

3.3 The Supplier guarantees that it possesses and will maintain in force for the duration of the Contract, all authorizations, licenses, and anything else required by law and/or regulations for the performance of the Supply; upon request of the Purchaser, the Supplier shall deliver a copy of the authorizations and permits necessary to perform the Supply.

3.4 The Supplier shall be solely responsible for submitting any documentation required in accordance with applicable laws in connection with the performance of the Supply to the competent authorities; it shall submit such documentation to the competent authorities at its own care and expense, providing a copy to the Purchaser at the same time. The Supplier shall also provide the Purchaser with the necessary assistance to comply with any document registrations and/or submissions required by the competent authorities.

3.5 The Supply does not provide any exclusivity; it is therefore expressly understood that the Purchaser retains the right to make use of others for the Supply of Goods and/or Services similar to those covered by the Contract. Purchaser, in addition, makes no commitment to the Supplier in relation to:

- (i) award of a minimum number of orders; or
- (ii) a time-based division, over the period in which the Contract is valid, as to the number of Orders covered by the Service.

3.6 If the Purchaser is not satisfied with the performance of the activity and/or Services as set out in the Contract by the Supplier, it shall give written notice of the reasons for its dissatisfaction to the Supplier, in which case the Parties will agree on the ways to improve the activity as set out in the Contract which they consider most opportune, which shall under no circumstances lead to any economic burden or additional cost to the Purchaser.

3.7 The Supplier is and shall remain an independent contractor; it shall therefore undertake to avoid all conduct which may lead third parties to believe that a relationship of agency, employment, representation or other business relationship exists with the Purchaser other than that covered by the Contract and by the Conditions. Consequently, the Supplier is not authorized to act on behalf of the Purchaser, to assume obligations binding upon the latter, or to send correspondence on behalf of or in the name of the Purchaser.

3.8 The Supplier shall not initiate or participate in any action or conduct tending to injure, bring into disrepute, ridicule, damage or destroy the goodwill of the Purchaser or of its affiliates or their respective businesses.

3.9 The Supplier shall not, without the prior express written approval of the Purchaser, use the name of the Supplier or that of any of its affiliates or any trade name, trademark or service mark or brand imagery belonging to PM Italia and/or its affiliates in any press release, any form of advertising, or any of its business communications (internal or external) except those necessary to the supply of the Activity.

3.10 Should the Supplier be contacted by third parties, including any newspapers, concerning the Supplier's activities in relation to the Purchaser, the Supplier and/or its Personnel shall make no comment and immediately notify the Purchaser of the third party contact.

3.11 In case of mandate to interact with third parties in the name and on behalf of the Client, the Supplier ensures that it shall give evidence of it to the third party concerned, in accordance with the traditions and practice of its professional association or category, as well as with any Client's policy sent to the Supplier.

3.12 The Supplier, pursuant to and in accordance with article 1381 of the Italian Civil Code, undertakes to ensure that the provisions of articles 3.8, 3.9, 3.10 and 3.11 above are observed by its Personnel (hereinafter "Personnel").

3.13 All drawings, documents and other specific material delivered by the Supplier to the Purchaser under the Contract, become the sole and exclusive property of the Purchaser, which will be the sole owner of such material and, therefore, the only one to have the right to reproduce and use it for the reasons which it considers opportune and/or necessary. This clause does not apply where such drawings, documents and other material are already subject to intellectual/industrial property mechanisms in favor of the Supplier.

3.14 The Supplier, in carrying out the Activity, acknowledges that from now on it may deal with other “Philip Morris International” companies and other third parties which carry out, on behalf of the Purchaser, activities connected and/or additional to the supply of Goods and Services; by all means, what is covered by the Contract is also applicable to dealings between the Supplier and third parties, towards which the Supplier is committed to collaborate in good faith for the correct execution of the Supply of Goods and Services.

3.15 In case the Supply relates to an information technology service, software development or maintenance or more generally IT and/or highly confidential Client data, the Supplier shall implement appropriate technical and organizational security measures to: (i) ensure the resilience of the Services; and (ii) protect the Client’s Confidential Information and personal data.

The Supplier’s security measures shall include, but not be limited to:

- a) the ability to ensure the ongoing confidentiality, integrity, availability and resilience of the Supplier processing systems and Services;
- b) the ability to promptly restore the availability and access to the Services, Client Confidential Information and Client Personal Data in the event of a physical or technical incident;
- c) a process for regularly testing, assessing, and evaluating the effectiveness of the Supplier’s security policies, processes and the technical and organizational security measures outlined in this clause; and
- d) the pseudonymization and encryption of Client Personal Data, where appropriate and upon Client’s request.

In the event of any unauthorized access, loss or physical and/or technical incident impacting the Services, Client Confidential Information and/or Client Personal Data, then the Supplier shall promptly notify the Client at soc@pmi.com and provide the Client with all reasonable assistance. The Supplier undertakes to maintain the above requirements throughout the period of validity of the Contract, otherwise the Contract shall be terminated.

The Client reserves the right, whenever it considers it appropriate, to implement controls aimed at ascertaining that the Supplier meets the above security requirements. This control can be carried out in a timely manner, at the very offices of the Supplier, who hereby undertakes to ensure access to its own premises to persons acting on behalf of the Client, whose names shall be communicated in advance to the Supplier itself from time to time.

3.16 In case that local, regional, national or supranational provisions should enter into force, making it impossible the total or partial execution of the Supply of Goods and Services, or the total or partial continuation of it according to the agreed terms and conditions, or the above provisions should impose the total or partial deferral of it, the Parties undertake to re-negotiate in good faith the terms, conditions and timing for the carrying out of the Supply of Goods and Services, considering the total termination of the Contract as a last option to pursue only in case of no other solution that is less extreme than the above and reasonably viable. In case of termination of the contract, the Client shall be entitled to the refund of the already paid fee, if any, referred to the portion of the Supply not received. Neither Party shall have the right to compensation for any damages suffered because of the early termination of the Contract.

3.17 In the event that the Contract involves the payment by the Client of an amount to contribute to the organization of an event and/or the performance of activities within which the Client will be given visibility, the Supplier declares that it will use the amounts paid solely for the activities described in the Offer and that there will be no other beneficiaries to whom it will disburse, in whole or in part, the aforementioned amounts without the prior written consent of the Client and without the potential sub-recipients having committed to comply with the provisions of this Contract. The Supplier also declares that such amount will not be used in any way to remunerate Public Officials and/or Public Service Officers who may participate in the event and/or activities described in the Offer. The Supplier further assures that the payment subject of the Offer will not be used for electoral activities, including independent expenses to support or oppose candidates for elective office. No portion of the aforementioned payment shall be considered a "campaign contribution" to any electoral committee, party, or movement.

4. Personnel

4.1 In performing the Supply, the Supplier shall act through an independent business organization, with management at its own risk, in absolute autonomy and independence as regards procedures and performance criteria, using its Personnel or personnel of subcontractors authorized pursuant to the following article 13, without constraints on time, territory, stability, subordination and/or hierarchical and disciplinary dependence towards the Purchaser, but in any case specially trained and qualified for the fulfillment of the Supply.

4.2 The Personnel shall perform the Supply covered by the Order and will report directly to the person in charge designated by the Supplier who, in turn, will have a counterpart in the project who shall be designated by the Purchaser.

4.3 The Supplier guarantees that the Personnel performing the Supply have the necessary professional standing and skills and valid and appropriate documentation to conduct the activity. Upon written request of the Purchaser, appropriate documentation shall be provided by the Supplier as proof of the performance of the commissioned activity. The Supplier also guarantees that the Personnel will be able to comply with the standards of conduct requested by the Purchaser or in use at its facilities.

4.4 The Supplier, by signing the Contract, guarantees that it has fulfilled and shall continue to fulfill all obligations stemming from existing legislation on employment, social security (INPS) and Accident Insurance (INAIL) with regard to the relationship between the Supplier and its personnel. The Supplier also guarantees that the Personnel are and will continue to be covered by the legal treatment and expected salary level set by the National Collective Labor Agreement which applies to the relevant sector, supplemented by local agreements, if any. In this respect the Supplier undertakes to hold the Purchaser harmless from any loss arising from alleged and/or assessed breaches of the legislation in force, which might even indirectly burden the Purchaser. The Supplier also guarantees that the provisions of this paragraph are complied with by any third-party companies (including companies belonging to the same group) used in the execution of the Supply of Good and Services, in relation to their personnel.

4.5 In case of access to the Purchaser's facilities, the Supplier guarantees that the Personnel carrying out the Contract, will observe, in addition to all current and applicable legal regulations, the safety provisions and performance procedures in force at the Purchaser's facilities, holding the latter harmless from any responsibility for the safety and security of Goods used by the Supplier for the performance of the Supply at the Purchaser's premises. Moreover, if the performance of the Contract requires the Personnel to access computers, systems or other equipment of the Purchaser, the Supplier shall ensure that Personnel comply with the Purchaser's provisions and regulations governing access to said Goods or instrumentation.

4.6 The Supplier also guarantees that the provisions in paragraphs 2, 3, 4 and 5 of this article are observed by any subcontractors used in performance of the Contract.

4.7 If the Purchaser is not satisfied with the performance of the Supply by the Supplier, it shall give written notice of the reasons for its dissatisfaction to the Supplier, in which case the Parties will agree on the ways to improve the Supply which they consider most opportune, including the possible replacement of the person(s) responsible for the Supply, which shall under no circumstances lead to any economic burden or additional cost to the Purchaser.

5. Prices and terms of payment

5.1 The consideration for the Supply is that which is stated in the Order sent by the Purchaser (hereinafter the "Consideration"). The Supplier acknowledges that the aforementioned amount is in line with those typically required for similar activities, also taking into account the level of professionalism and experience required of the Supplier, as well as the time and effort necessary to complete the Activity.

5.2 Unless otherwise specified in each Order, payment will be made no later than 120 (one hundred twenty) days from the receipt of invoice by bank transfer using the banking coordinates provided in advance by the Supplier and in any case shown on the invoice. In the case of the provision of Services and where appropriate, considering the agreed activity, the Purchaser reserves the right to ask for the dispatch of time sheets on the work undertaken, which must be approved for the purposes of the payment.

5.3 The Parties agree that the Consideration as set out in the first paragraph of this article has been agreed between them as being all-inclusive and, therefore, includes all the contents, services and everything else necessary for the current provision of the Supply, as well as the Supplier's margin and overheads, including those arising from the compliance with the laws, regulations, standards, specifications, regulations issued by the competent authorities, as well as acquisition of permits and authorizations from the local authorities needed to perform the Supply. The Purchaser will reimburse the Supplier for expenses which are not included in the aforementioned Consideration and which have been reasonably incurred in order to perform the Supply, only if authorized in writing by the Purchaser and if accompanied by the related supporting documents.

5.4 Invoices must contain the name of the bank to which payment is to be made and the IBAN (International Bank Account Number).

5.5 In any case, the payment of the consideration is subject to compliance with anti-corruption, health and environmental regulations, and the protection of human rights, as well as to compliance with the principle of regular salary, social security and tax payments by the Supplier and any subcontractors used in compliance with the legal provisions in force. The Purchaser will, therefore, have the right to ask, at any time, for documentation to show such payments or suitable substitute statements.
